

Vehicle Cameras

Carelessness is expensive. It only takes one mistake with a big vehicle to ruin profitability and end lives.

Our selection of cab cameras can eliminate costly mistakes by eliminating dangerous blind spots, and an optional microphone can increase driver awareness even more.

In addition, our flat screen LCD cameras are compact enough to fit into any cab without cluttering up visibility.

Rostra cameras are the best in-vehicle safety cameras available:

- 3 year / 36k mile warranty
- Design/engineering support
- Easy installation, minimal holes drilled in vehicle
- Completely universal
- 150° view eliminates blind spots - camera angle shows entire area behind vehicle
- Tech support hotline
